"The accuracy and durability has stood up to my rigorous work load over the last 4 years and I am able to check the calibration while it is set up on a truck, no additional equipment is necessary, this aligner is quick, easy to use and very accurate".

Ian Scarlett—Business Owner,  
True Track Truck Alignment , Picton W.A.

"We purchased your truck aligner earlier this year .. .. ., it has done plenty of work since we started using it in April and as you know, we have over 400 buses on the road, you may also be interested to know that our GM has found significant reduction in our tyre expenditure".

Alistair Banting—Workshop Manager,  
Swan Transit Group Pty Ltd

"The LX7—3000T is easy to use, easy to teach and easy to learn on, without compromising any functions and accuracy, the students learn quickly and get a full understanding of wheel aligning".

Mick Maibaum—Lecturer: Heavy Duty Automotive,  
Bunbury TAFE

## CAR KIT—OPTIONAL EXTRA

This kit allows your aligner to be used on the smaller car rims. Included is a CD of Car Specifications.
